SUPER MARIO ALL-STARS™

CLASSICS REVISITED

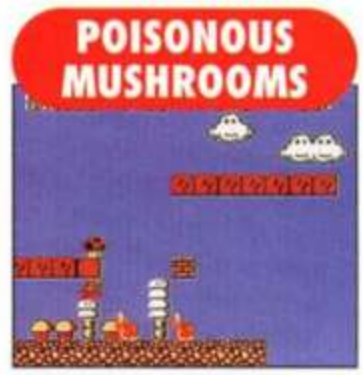

Super Mario All-Stars features the chart-topping trilogy of NES Super Mario Bros. classics with brilliant 16-bit graphics and sound, along with a 13-world challenger that has never before been made available to North American players. Released in Japan as the sequel to the original Super Mario Bros. game, this super tough Mushroom Kingdom adventure is now known as the Lost Levels.

SUPER MARIO BROS. –THE LOST LEVELS–

POISONOUS MUSHROOMS

Some Mushrooms now power-down your plumber as seen here in the Super NES and original Japanese versions.

Warp Zones send heroes both forward and backward in this challenging adventure.

WEIRD WARPS

SUPER SPRINGS

These devices add to your air time.

RED PIRANHAS

These plumber-eaters don't back down.

SUPER GRAPHICS & SOUND

With the 16-bit processor of the Super NES, the original Super Mario Bros. games are now presented with more detailed graphics and fuller sound.

SUPER MARIO BROS.

NES

Underground passages have a cave-like background and echoing sound effects.

NES

Bowser's digs have been decorated with portraits of the king.

SUPER MARIO BROS.2

NES

Among the graphic changes is the addition of a menacing mask background.

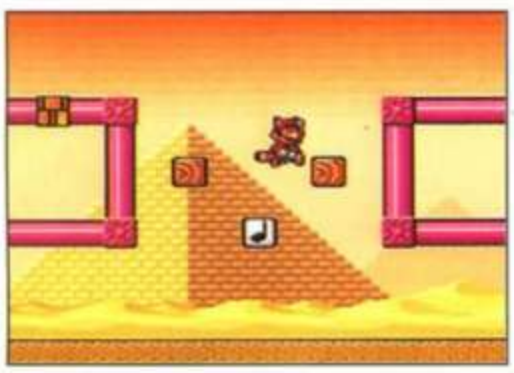

NES

A desert canyon can now be seen in the distance in this stage.

SUPER MARIO BROS.3

NES

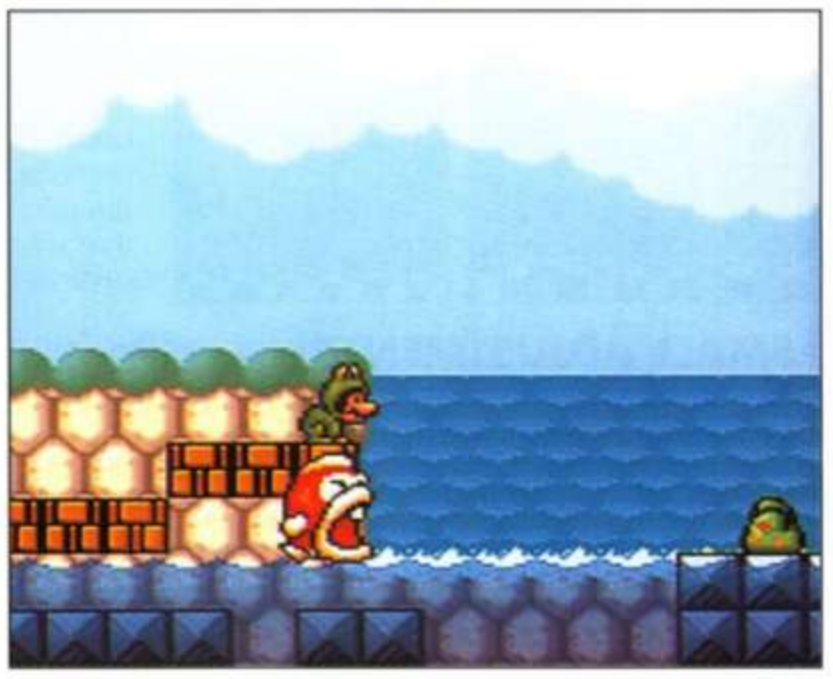

The desert of Super Mario Bros. 3 now includes a pyramid in the background and a gradated sky.

NES

The great graphics of Super Mario All-Stars allow for clear water in the flooded courses of Super Mario Bros. 3. This guarantees smooth sailing for adventurers who can see swimming creatures before they jump out from the murk.

NEW FEATURES

In addition to enhanced graphics and sound, and the discovery of the Lost Levels, a few minor changes have been made to improve the classics.

SUPER MARIO BROS.

•EQUAL TIME

During two-player games, players used to switch off only when one character lost a life. Now, control changes upon the loss of a life or the completion of a level. This gives players more equal playing time.

SUPER MARIO BROS. 2

•HIGHER STAKES

The Slot Machine features two new pay-offs. You'll earn three Coins if two Sevens appear when the wheel stops. Three Sevens will net you ten extra lives.

•CHARACTER SWITCH

In the original version of this game, you could switch characters only upon the completion of each stage. Now, you can also choose to control a different character if your current character has lost a life.

SUPER MARIO BROS. 3

•POWER-UP HOLD OVER

The battery back-up keeps track of the worlds that you have conquered and the items that you have accumulated. When you select a saved file, the levels of the current world will return to their uncleared state, but you'll have the saved items. This feature makes it possible to carry advanced items into early stages.

•KINGS CHANGE

The rulers of the kingdom have been transformed by Iggy and the other stooges under Bowser's control into animals. This new version of the game features creatures that were not used in the original NES version.

•SMALL ADJUSTMENTS

Over the years, a few tricks have been discovered that relate to the design of the stages such as the tip that allows your character to swim against the current in Stage 4-4. These items have now been corrected.

BATTLE GAME
–MARIO BROS.CLASSIC–

Two players clash in a round of the original Mario Bros. game to claim levels and items in the NES version. The new version offers this battle as an option at the beginning.

SUPER MARIO ALL-STARS

SUPER MARIO BROS.™

MARIO'S POWER-UPS

When trouble heads Mario's way, there are (luckily) several ways you can Power-Up to get out of a tight spot or two. Mario can pour on the speed to hot foot it out of trouble. He can get BIG, and he can make things hot for the bad guys.

SUPER MUSHROOM **FIRE FLOWER**

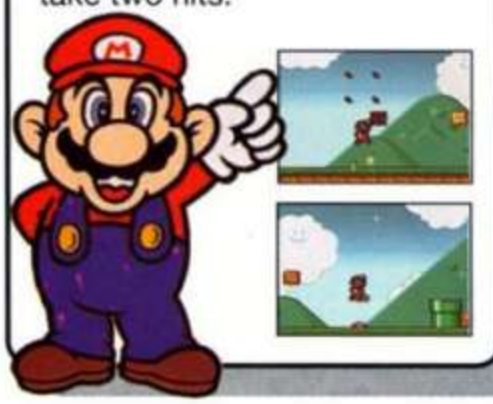

MARIO

Mario starts out Small. In this form, he can run and jump, but one hit and he's done!

SUPER MARIO

With a Mushroom Power-Up ("P" on the map) Mario can take two hits.

FIERY MARIO

Once you are Super Mario, the "P"blocks will give you a Fire Flower. Pick one and gain Fireball power!

MARIO MOVES

Mario is a fellow of many tricks when it comes to trouble. He runs, jumps, dashes, does a dash jump, stomps his feet, ducks and is a master of the flaming Fireball.

JUMP

When Mario is at a standstill, press "A" and up he goes.

DASH

To hightail it out of a trouble spot, press "B." Run for it!

DASH JUMP

It's a great move. Press "A" while running. Wow!

STOMP

The idea is to stop bad guys with a bonk. Ouch!

STOMP AND CHASE

After Mario stomps a Koopa Troopa, he can give it a kick and chase it while it clears the path, until it hits a block, that is a block in the road.

DUCK

Timing is everything if you are trying to duck out of trouble.

FIREWORKS

Fireworks can be set off when you jump onto the pole at the end of each level. Make sure the last digit of the timer shows 1,3 or 6!

ENEMIES

SUPER MARIO BROS.™

Poor Mario. When you see this lineup of bad guys, you may wonder how he'll ever get to the Princess. He may be up against some crabby rascals like these, but he always has a way to get through in the end.

1 GOOMBA

It's easy to get rid of a Goomba. Fireballs, a quick stomp or a hit from below will do it.

2 RED KOOPA TROOPA

The Red Koopa Troopa won't approach Mario. Give it a kick!

3 GREEN KOOPA TROOPA

Stun'em with a jump then kick-and-chase. Or, toss'em a Fireball to clear the way.

4 RED KOOPA PARATROOPA

Winged turtles take two hits--one to clip their wings, one more to send them sailing.

5 GREEN KOOPA PARATROOPA

The green ones are less dangerous than the red. A slow floater. Stomp!

6 BUZZY BEETLE

He's fireproof! Stomp on him, and he stops moving for a while.

7 HAMMER BROTHERS

These twin turtles try to block Mario's way. Try Fireballs or a hit from below.

8 LAKITU

He drops spiny eggs on Mario. Get him by jumping on him from above.

9 SPINY EGG

The only thing that works is a Fireball. Turn up the heat!

10 SPINY

Spiny throws this nasty little pest from the sky. Thorny!

11 PIRANHA PLANT

Touch a Piranha's pipe to keep it out of sight. Jump over them with care.

12 CHEEP CHEEP

He appears from below, but then attacks from overhead."Cheep trick!"

13 BLOOPER

This enemy lives in the water. You can deep-six him right where he lives.

14 BULLET BILL

He zips through the land at high speed. Jump on top for points.

15 PODOBOO

This lump of lava is a real hot spot. Just try to avoid it!

16 FIRE-BAR

Great balls 'o fire! All in a row. Stay cool. Watch your timing.

17 BOWSER

Bower lurks at the end of every world ready to attack. Try a Fireball. Or steal his ax, and chop the bridge.

Know the time limit for your current stage.

SUPER MARIO BROS.™ THE LOST LEVELS

PLUMBER PERFORMANCE

As is the case in Super Mario Bros. 2, the brothers Mario have slightly different abilities in the area of jumping. Luigi is the high jumper of the two, while Mario can stop more accurately.

MARIO

When Mario jumps, he can clear the height of four blocks on a normal run and five on a dash, which works out to a 25% dash boost. He can also stop with accuracy.

NORMAL JUMP▸4 BLOCKS

DASH JUMP▸5 BLOCKS

LUIGI

Luigi clears the height of 5.5 blocks on a normal run and six while dashing. This gives him a 9% dash boost. His four block slide makes stopping a chore.

SLIP▸4 BLOCKS

LOST LEVEL SURPRISES

The Lost Levels are a logical extension of the first Super Mario Bros. game. The objects and enemies are very similar with the exception of two interesting items; the Poisonous Mushroom and the Super Spring.

POISONOUS MUSHROOM

Red Mushrooms make little Mario or Luigi super-sized. Green Mushrooms serve as a 1-Up. But, Blue Mushrooms should be avoided. These nasty objects power-down a big plumber and knock out a small plumber.

SUPER SPRING

These jump-aids look identical to the regular Springs. But when your hero hits a Super Spring and jumps at the same time, he'll blast off into the stratosphere.

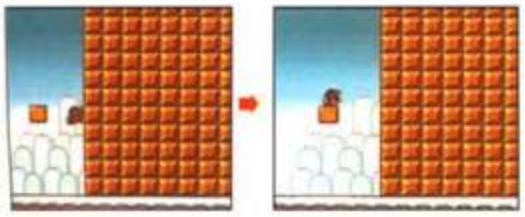

ADVANCED TECHNIQUES

SUPER MARIO BROS.™ THE LOST LEVELS

You'll have to perfect a few tricky moves in order to successfully explore the challenging Lost Levels. Take a look and use them as they apply.

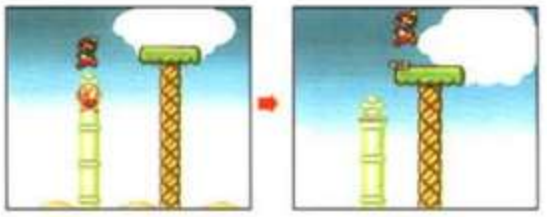

DASH AND JUMP BACK

With limited space to run, dash past high target platforms, jump and back up in the air to land safely.

KOOPA PARATROOPA STOMP

If the only thing between your character and a far away platform is a flying Koopa, you can bounce off of the turtle for extra distance.

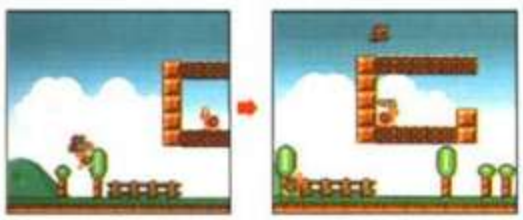

SPRING JUMP

Springs provide minimal extra height if you simply bounce off of them. You'll get extra air by jumping when you hit the Springs.

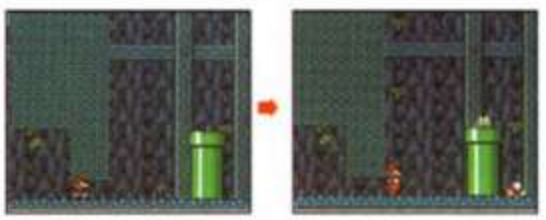

BOUNCE ON THE FLY

This variation of the Koopa Paratroopa Stomp works for both height and distance. Dash, jump, stomp and continue to fly forward.

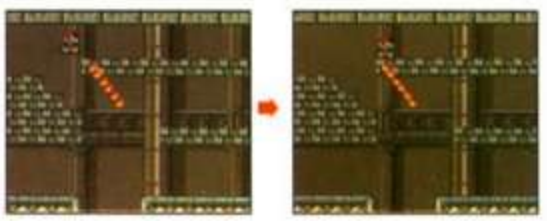

LOW SLIDE

If your character is super-sized, he can't run under one-block high gaps. Make him dash, duck and slide under the obstacle.

DUCKING JUMP

Super-sized characters often hit low ceilings when they jump. To avoid this, you can make them duck first, then jump.

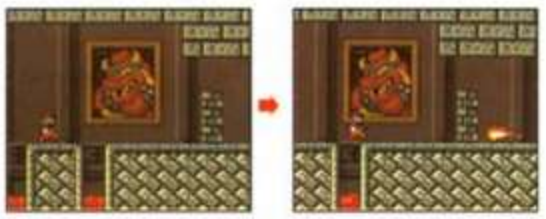

FALL AND CURVE

If a platform hangs over your targeted destination, you can jump and move in the air to the place that you need to land.

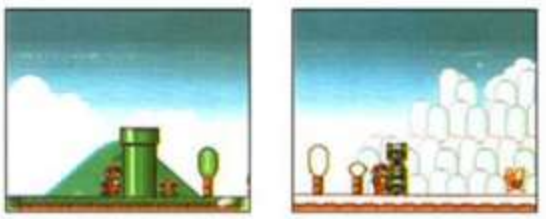

NARROW GAP DASH

If the gap in front of your character is one block in width, there's no need to jump. Just run over the gap with super speed.

ENEMY STOP

Stop Green Piranha Plant and Bullet Bill activity by standing next to the pipes and cannons where they appear.

POWER-UP WRAP AROUND

If there's a Power-Up at the edge of a series of blocks, you can collect it by jumping and changing your direction in the air.

MUSHROOM REBOUND

Power-Up Mushrooms always slide to the right. You can make them go the other way by hitting the next block over.

JUMPING STOP

Luigi often slides too far after a jump. You can stop his slide by making him jump straight up. He'll land again with no slide.

MORE ADVANCED TECHNIQUES

There are a few tricky maneuvers that have limited uses but are, nevertheless, good to know. Study the tricks below and try them out for yourself. You may impress other Lost Level fans with your skill.

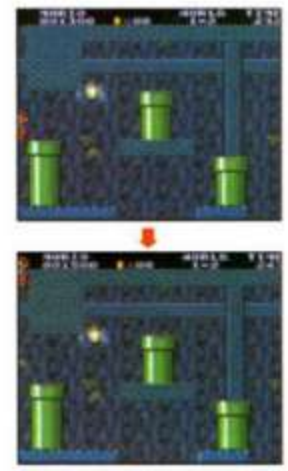

MUSHROOM DISAPPEARANCE

Poisonous Mushrooms are a real menace. You can make them disappear in certain situations by finding a Power-Up Mushroom in the area. Just pop up one and the other will be gone.

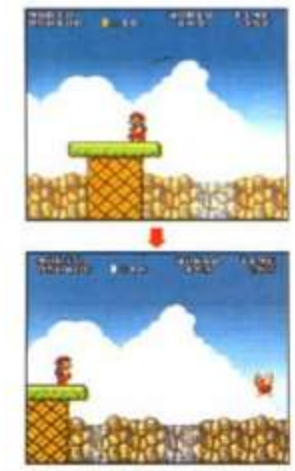

TIGHT SQUEEZE

In a few very special situations, when you find a gap that is exactly the right width, you can make your character levitate and move to higher ground.

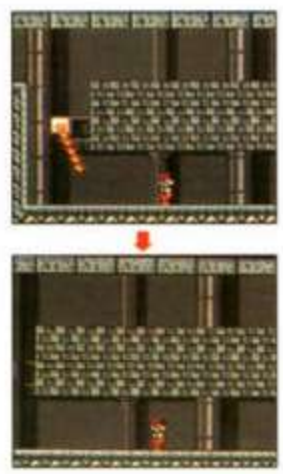

SCROLL IN

If a moving target is off of the edge of the screen before you jump, you'll have very little luck in hitting it. Move slowly to the right until the target is in view.

SCROLL OUT

A Fire-Bar will stop rotating around a block if your character has to move past it to the extent that its center is off the left edge of the screen.

FIREWORKS

Fireworks sometimes celebrate the end of a level. You can trigger them by grabbing the Flagpole when the last digit of the timer is a 1, 3 or 6.

1-UP POLE GRAB

If your Coin total is two of the same digit and you hit the Flagpole when the last digit of the timer is the same as the others, you'll walk away with a 1-Up.

WARP ZONES

There are 11 Warp Zones in the Lost Levels, including the mysterious backwards Warp Zone in World 3-1 leading to World 1-1. Find 'em all.

LOW OVERHEAD

There's not much room to jump in this passage if your hero is super-sized, especially if he is high-jumping Luigi. You'll have more clearance if you duck first, then jump.

FIRE FEST

There are two types of fiery obstacles here; Bowser's Fireballs and rotating Fire-Bars. If you've got good timing you can make a spectacular move and jump over a Fireball and Fire-Bar at the same time. The king will be impressed.

MEET THE KING

Your expedition through the first of the Lost Level Worlds ends in an encounter with Bowser, King of the Koopas. If you have Fireballs you can finish him off with four blasts. If not, run past him to the right and cut the bridge from under his feet.

JUMP FOR POWER

The Power-Up at the entrance to Bowser's Dungeon is very high and close to the edge. If your hero is small, pop up the Mushroom then grab it as you jump over the gap to the right. If your hero is super-sized, approach the Fireflower from the left side to avoid falling in the pit.

REST ON THE WALL

Bowser's Fireballs never fly higher than the walls here. Jump on top of these brick barriers and wait for the right moment to continue your journey to the level's end.

WAIT HERE

Position your plumber to the left of the pipe. Then, when the Piranha Plant sinks and the Koopa walks to the left edge of the bricks, jump and bounce off of the Koopa to the top of the next pipe.

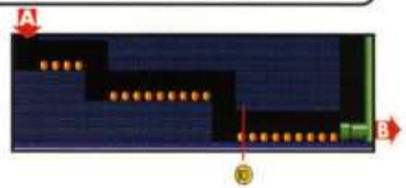

NARROW GAP

If your character is small, dash and jump between the pipe and the row of bricks to reach the Power-Up.

BOUNCE FOR DISTANCE

You've perfected the Koopa Paratroopa Bounce by now. Jump to the right and target the Koopa to bounce off of its back and land on the bricks.

BOUNCE FOR HEIGHT

Altitude is more important than distance in this situation. When you bounce off of the Koopa, take advantage of the extra air time and land on the bricks above.

WORLD C-2

BLOOPER WATCH

The Blooper on the bridge will close in on you if you wait too long. Move quickly and cautiously with your eyes on the enemies.

DASH ACCURACY

You might remember a section of World 4-3 that was very much like this long, open gap. Run with super speed and hop onto the blocks with all of the expert-jumping skill that you can muster. Then, pat yourself on the back.

A LONG WAY TO KOOPA

The Koopa Paratroopa in this area hovers near the right edge of the gap, leaving a big space between the left edge and itself. Walk to the right until you see the Koopa, then back up, dash and jump. With luck, you'll hit it.

POWER IN THE AIR

Jump up when the sliding platform is positioned under the Power-Up here, then jump again and collect the Mushroom.

MID-STAGE POWER-UP

Position your hero between the row of blocks and the bluff in this area. Then jump up to pop a hidden Power-Up block and get your character into fighting shape.

LAKITU TROUBLE

A Lakitu hovers near this Spring. Make sure the air is clear before you jump.

NOWHERE TO RUN

Be careful! There's very little room to get away from the Lakitu in this area.

WIND LOSS

The wind stops blowing when you reach this area. Don't let it affect the way that you jump.

WORLD C-4

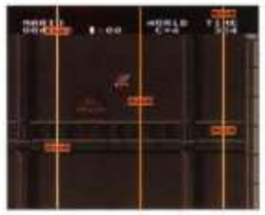

FAMILIAR SURROUNDINGS

World C-4 is much like World 7-4, only this level opens with an additional Fire-Bar. Dash past the extra obstacle and move on.

UPS AND DOWNS

This open area of the dungeon includes five lifts. Power-Up by popping up the hidden block first, then leap from the block to the closest lift. If you're light on your feet, you should be able to hop across the gap with ease.

V-SHAPED HOP

The bricks in the corners of this boxed-in area will keep you from hiding from the Fire-Bar. Instead, you'll have to move very quickly, leaping from the left edge to the center to the right edge without stopping.

TOUGH BEGINNING

This level has two challenges. You must first pass a pair of Hammer Bros., then clear a long gap by bouncing off a Koopa.

KOOPA BOOST

Hit the back of a Koopa Paratroopa to launch your hero to the top brick. Then jump again to reveal a 4-Up Mushroom.

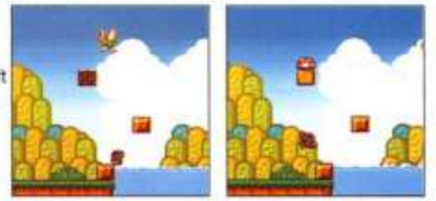

THE LOST MUSHROOM

The Power-Up in this Coin Room is boxed in by bricks. If your hero is small, it is unreachable.

SHORT RUN, HIGH JUMP

There's a Power-Up in the floating brick. Dash left from the right edge of the ground block and jump to pop it out.

KICK AND DASH

Once you flatten the Koopa, kick its shell and run with super speed to clear the narrow gap.

HOPSVILLE

Upside-down Piranha Plants cause trouble here. Hop across the gaps and avoid the plants.

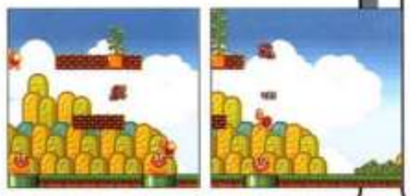

MUSHROOM RETRIEVAL

After your pint-sized plumber pops the Power-Up, hit the brick to the right so that he can collect it.

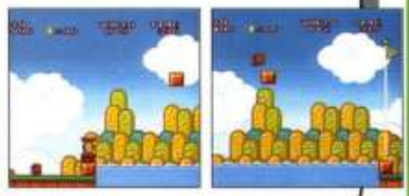

DOUBLE BONUS

When you bounce off of the Koopa in this area and climb the vine, you'll be on the path to a pair of bonus areas.

ACCURACY COUNTS

The floating block in this area is a narrow but crucial platform. Carefully jump to the block and hop to the flag.

WORLD D-3

NO BILL ZONE

By standing next to this Bullet Bill Cannon you can keep it from releasing shots as you wait to collect the Power-Up in the area.

HAMMER HI-JINX

A Hammer Bros. duo causes trouble here. Dash and jump over the Bros. and between the hammers.

WATCH FROM ABOVE

Wait at the top of this stack of blocks for the Hammer Brother to close in. Then jump off of the blocks and stomp or pass.

CANNON HOPPING

As you leap from one Cannon to the next here, make sure that a Bullet Bill isn't launching from the next Cannon up.

LONG JUMP, LONG BAR

Jump across this gap as soon at the Fire clears away, then hit the ground dashing and run to safety.

GO BELOW BOWSER

Run under Bowser's brick platform here, then jump up and double back to collect the Power-Up.

STOP, THEN STOMP

Wait for the Hammer Bros. on the left side, then stomp 'em.

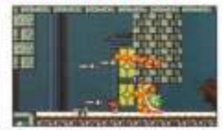

PIRANHA WATCH

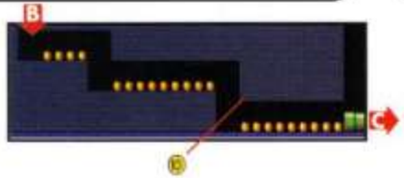

Move to the right until the Piranha Plant comes into view. Then jump when the pipe is clear.

GRAND FINALE

You've met Bowser many times to get to this point. Now, beat him once more to complete the last Lost Level.

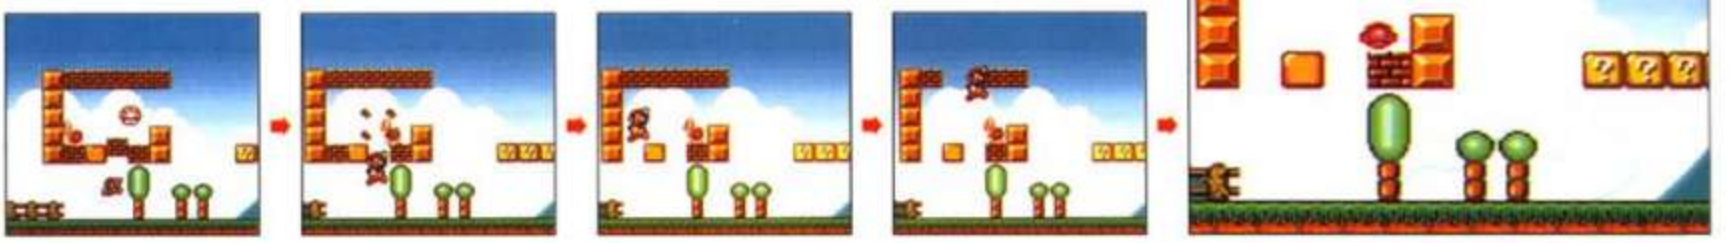

MASSIVE 1-UPS

If you're a master at Koopa crunching, you can accumulate a lot of 1-Ups by letting a Koopa shell bounce between your character and a wall. But, don't collect more than 100 1-Ups or weird things might happen.

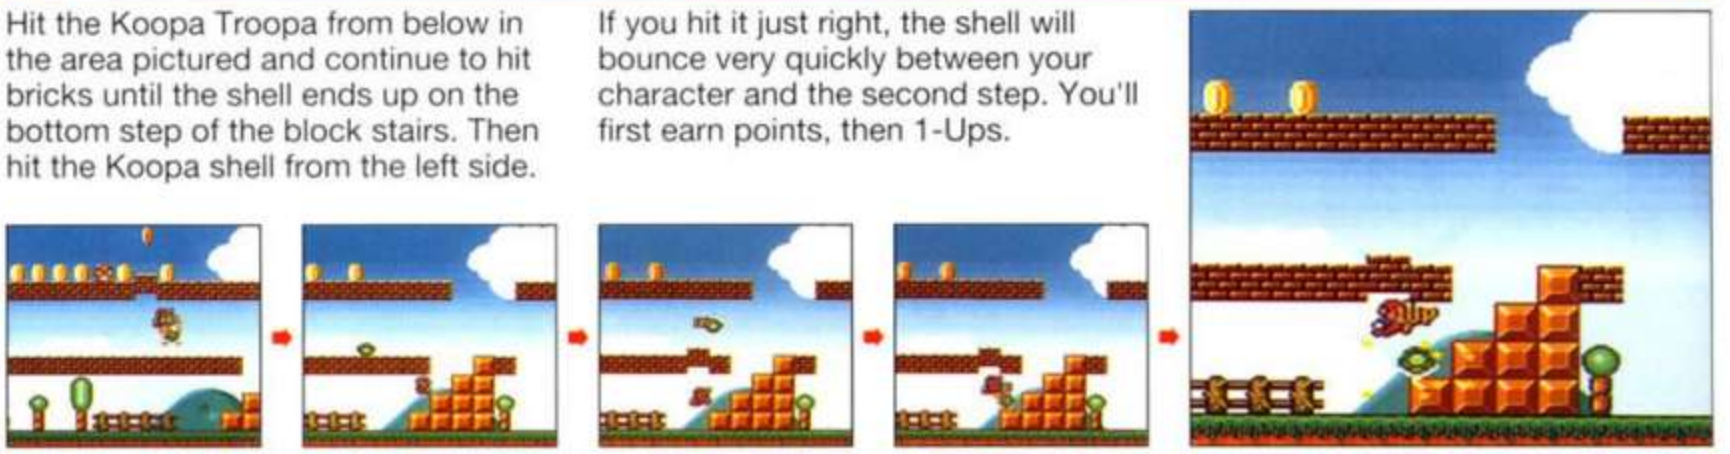

WORLD 1-2 PART 1

After you pop the Power-Up out of the bricks and collect it near the beginning of this level, corner the Koopa Troopa on a single brick to the right. Then clear away the surrounding blocks, stomp the Koopa and jump onto the left edge of the Koopa's shell. The shell will bounce out of control and start to register 1-Ups.

WORLD 1-2 PART 2

Hit the Koopa Troopa from below in the area pictured and continue to hit bricks until the shell ends up on the bottom step of the block stairs. Then hit the Koopa shell from the left side. If you hit it just right, the shell will bounce very quickly between your character and the second step. You'll first earn points, then 1-Ups.

WORLD 2-1

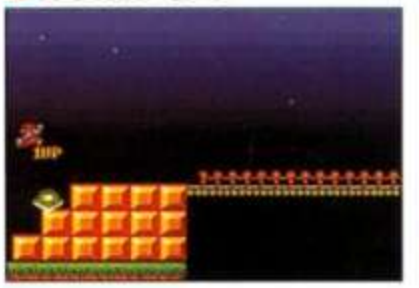

Hit the Koopa Paratroopa on the bridge and let it walk to the left edge. Then arrange it so that the shell bounces back and forth between your hero and the top step for a ton of extra lives as previously described.

SUPER MARIO BROS.™ 2

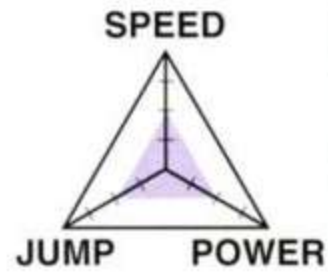

SUPER TEAM

What a team! Banded together for a huge adventure are Mario, Luigi, the Princess and Toad, her faithful retainer. Each character has special talents. Get to know them well. You'll need all their skills to get you through the challenges.

MARIO

Mario can walk, jump, squat, slide, climb, swim, fly, float and stomp. Those are just the basics. How about a pick-up and kick move? He's a well balanced guy!

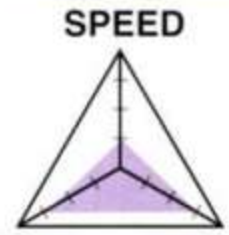

LUIGI

Mario's tall, slim brother has a few tricks of his own. Those long legs are good for extra high jumps. And his running ability isn't too shabby either!

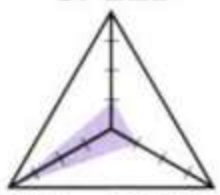

For the first time, the Princess is playing more than a waiting game. She's very talented at floating into action.

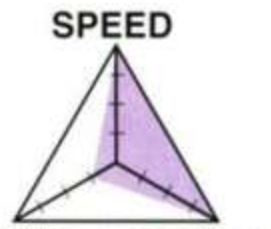

TOAD

He's happy. He's loyal. And he's a helpful member of the team in a pinch. The Princess' retainer, Toad, is not hindered in the least by the weight of Items as he scampers along.

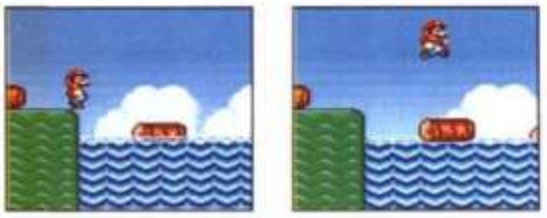

BASIC TECHNIQUES

SUPER MARIO BROS.™ 2

JUMPING

While at a standstill, press "A." You'll jump up and down, but not very high. Pretty simple!

LIFT AND THROW

With the "B" Button, you can pull up the grass and even pick up and throw the nastiest enemies.

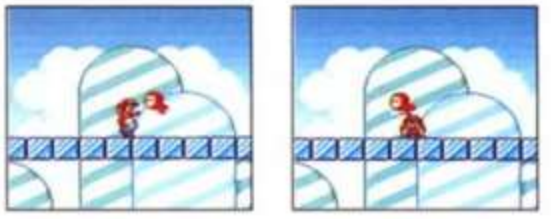

DIGGING

Press "B" repeatedly to dig into the soft sand and move downward. If you can, grab Cherries.

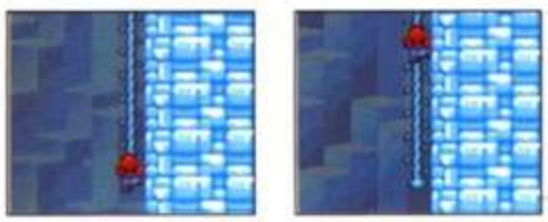

DUCKING

Throughout the crazy dream world of Sub-con you'll find you want to duck out of danger! Handy.

CLIMB

Some blocks contain magic vines that you can climb to reach bonus stages or secret rooms.

POP INTO PIPES

Just press Down, and slide! What a way to get around. Try going up an upside-down pipe.

DOORWAY

Press Up when you're in the doorway to open the various doors, some of which are invisible!

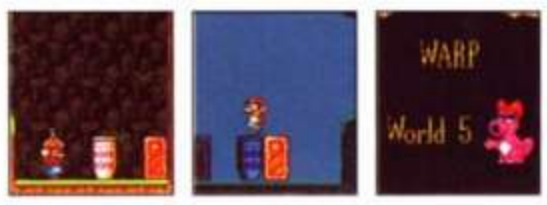

SUB-SPACE

Take a potion to get through a door and into Sub-space. Then find a mushroom and Power-Up!

SLOT GAME

If you do some weeding when you're in Sub-space, you get to play a matching game at stage-end.

ITEMS

All of these items will help you on your quest. Use some items to get the best of your enemies, some to restore your life, and others to enter new or hidden areas. This list will help you identify unfamiliar items that you find along the way.

SPROUT

It's not full grown, but you can still use it to attack the bad guys!

VEGETABLES

Use them to attack. You may also get a "Stopwatch" each time you find five.

POW

Throw it and create an earthquake! Enemies on the ground will be "all shook up."

1-UP MUSHROOM

This is especially helpful. Just reach out and catch it.You have a whole new life!

POTION

Use the Magic Potion for a swift voyage to Sub-space. You'll need it to find mushrooms and Coins.

SUB-SPACE MUSHROOM

This Mushroom appears only when you enter into Sub-space at one certain spot.

KEY

You need it to unlock a door. But you can also give it a turn at enemies. Yes!

ROCKET

Sometimes when you pull up grass, a Rocket appears. Take off with it. Zoom!

HEART

Defeat a lot of enemies and a Heart appears. It's great for your Life Meter.

STARMAN

It may appear when you have enough Cherries. You'll be invincible against enemies.

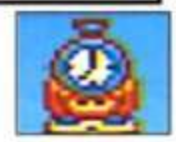

CHERRY

If you manage to pick up plenty of bonus Cherries in your adventures you'll get Starman.

STOPWATCH

An important trick is to count and remember all the vegetables you have found.

COIN

The grass you pull up in "Sub-space" will turn into Coins. Handy at the Bonus Chance Stage.

MUSHROOM BLOCK

Throw it to attack the enemy. Use it as a lid, or use it as a take-off base.

ENEMIES

In Sub-con, the World of Dreams, you will find many strange creatures lurking at every turn. They are Wart's "moppets."

These enemies try to foil the efforts of the brave foursome. Some enemies look different in this All-Stars version.
